

SOMERTON

Lower Somerton and Perry Hill

Distance: 1¼ miles or 1¾ miles

Target Time: 25 or 40 minutes

Description: Town and field paths. Several stiles (including one strenuous!). Only suitable for the moderately fit and agile. Muddy in places.

Start: Half Moon Car Park

1. Turn left along main road, cross road over zebra crossing, and shortly bear right at junction. At next junction (after 75 yards) continue straight ahead along Kirkham Street. After 30 yards turn right into School Lane, when lane ends continue straight ahead downhill along surfaced path between railings to meet road.
2. Turn left along road, 30 yards after mini roundabout, turn right over wall (footholds in wall) signposted to Polham Lane. Bear right uphill across field to stile. Bear slightly left uphill across field to cross stile in far top right corner. Straight-ahead keeping hedge on left hand side, MID WAY ACROSS THE FIELD there are two options to continue.

Route suggested by Somerton Parish Paths Partnership

Option 1 (short route):

Continue straight ahead across rest of field to cross stile opposite. Continue straight-ahead keeping hedges and fence on right hand side to eventually meet quiet lane. Turn right along lane, and then continue from point 3.

Option 2 (full route):

Turn left along muddy track which soon runs alongside edge of field with hedge on left-hand side. Follow track to eventually meet lane (Mill Lane). Turn right along lane and after 400 yards turn right at crossroads (first right turn) along lane, then continue as below.

3. **For both routes:** Follow lane into Somerton, under railway bridge and follow lane around right hand bend to eventually meet Sutton Road. Turn right along road to junction by Post Office. Turn right at junction, and shortly turn left across main road to return to the Half Moon Car Park.
